

SANITISING ELECTRIC SPRAYER NUH-SES

Designed to meet the demands of a sanitizing contractor

Product Information

This Sanitising Electric Sprayer is a stand alone unit that's ready for immediate use (the only extra is the appropriate disinfectant and a power source).

Features

- Tough construction copes with rigorous on-site situations
- Specific sanitization spray tip to ensure correct atomization
- Ergonomically designed gun to minimize hand and wrist fatigue
- 15m flexible hose
- 380mm lance to ensure reach into those otherwise hard to-get-at areas
- Includes a specifically designed spray tip that ensures maximum surface coverage and fogging
- Light weight - under 12kg for easy handling by operatives

Price

£2150 +VAT (1 machine)

£1995 +VAT (2+ machines)

Ideal for:

- Healthcare environments, hospitals, and public areas where deep cleaning is essential.
-
