Suggested Applications

- Agriculture
- Insulation
- Automotive
- Construction
- Engineering
- Plumbing
- Veterinary
- Assembly
- Janitorial
- General Handling

Limitations of Use:

Maintenance - Examine gloves for damages, splits and holes before each use. Always replace damaged gloves. Only properly fitting gloves guarantee protection and grip.

Storage - Store at normal room temperature in a dry, well ventilated area. Avoid direct heat radiation.

Disposal - Used gloves can be contaminated. Dispose with household waste or as instructed by your local authority.

Cleaning - These gloves can be washed and maintained as and when required to enhance performance and increase longevity.

Durability - The period of use depends on the degree or intensity of use in the retrospective application. It is therefore not possible to provide a 'life span' of the gloves.

Note - Due to the nature of this product the user is advised to carry out their own risk assesment before use, depending on application.

Recommended Shelf Life - 5 years.

CE 2777 

CAT III Complex Design - Type B

Testing Requirements

These items comply with the requirements of Module D of the PPE Regulation (EU) 2016/425 and the harmonised standard(s) referenced.

The CE mark indicates that the product complies with the general requirements, as laid out in the PPE Regulation (EU) 2016/425, EN420 + A1:2009 Protective Gloves General Requirements, EN374-1:2016, EN374-2:2014, EN374-4:2013, EN374-5:2015, EN1186, EN455-1, 2 & 4.
