

Clad Safety A4 Shoe Size Guide

Instructions

Print the Shoe Size Guide and Ruler on A4.

In the print settings the **Page Scaling** must be set to **Actual Size** or **None**. Check against an actual ruler to ensure scale is correct.

Cut out the ruler.

Length

Place heel on line as shown.
Measure length using foot gauge.

Width

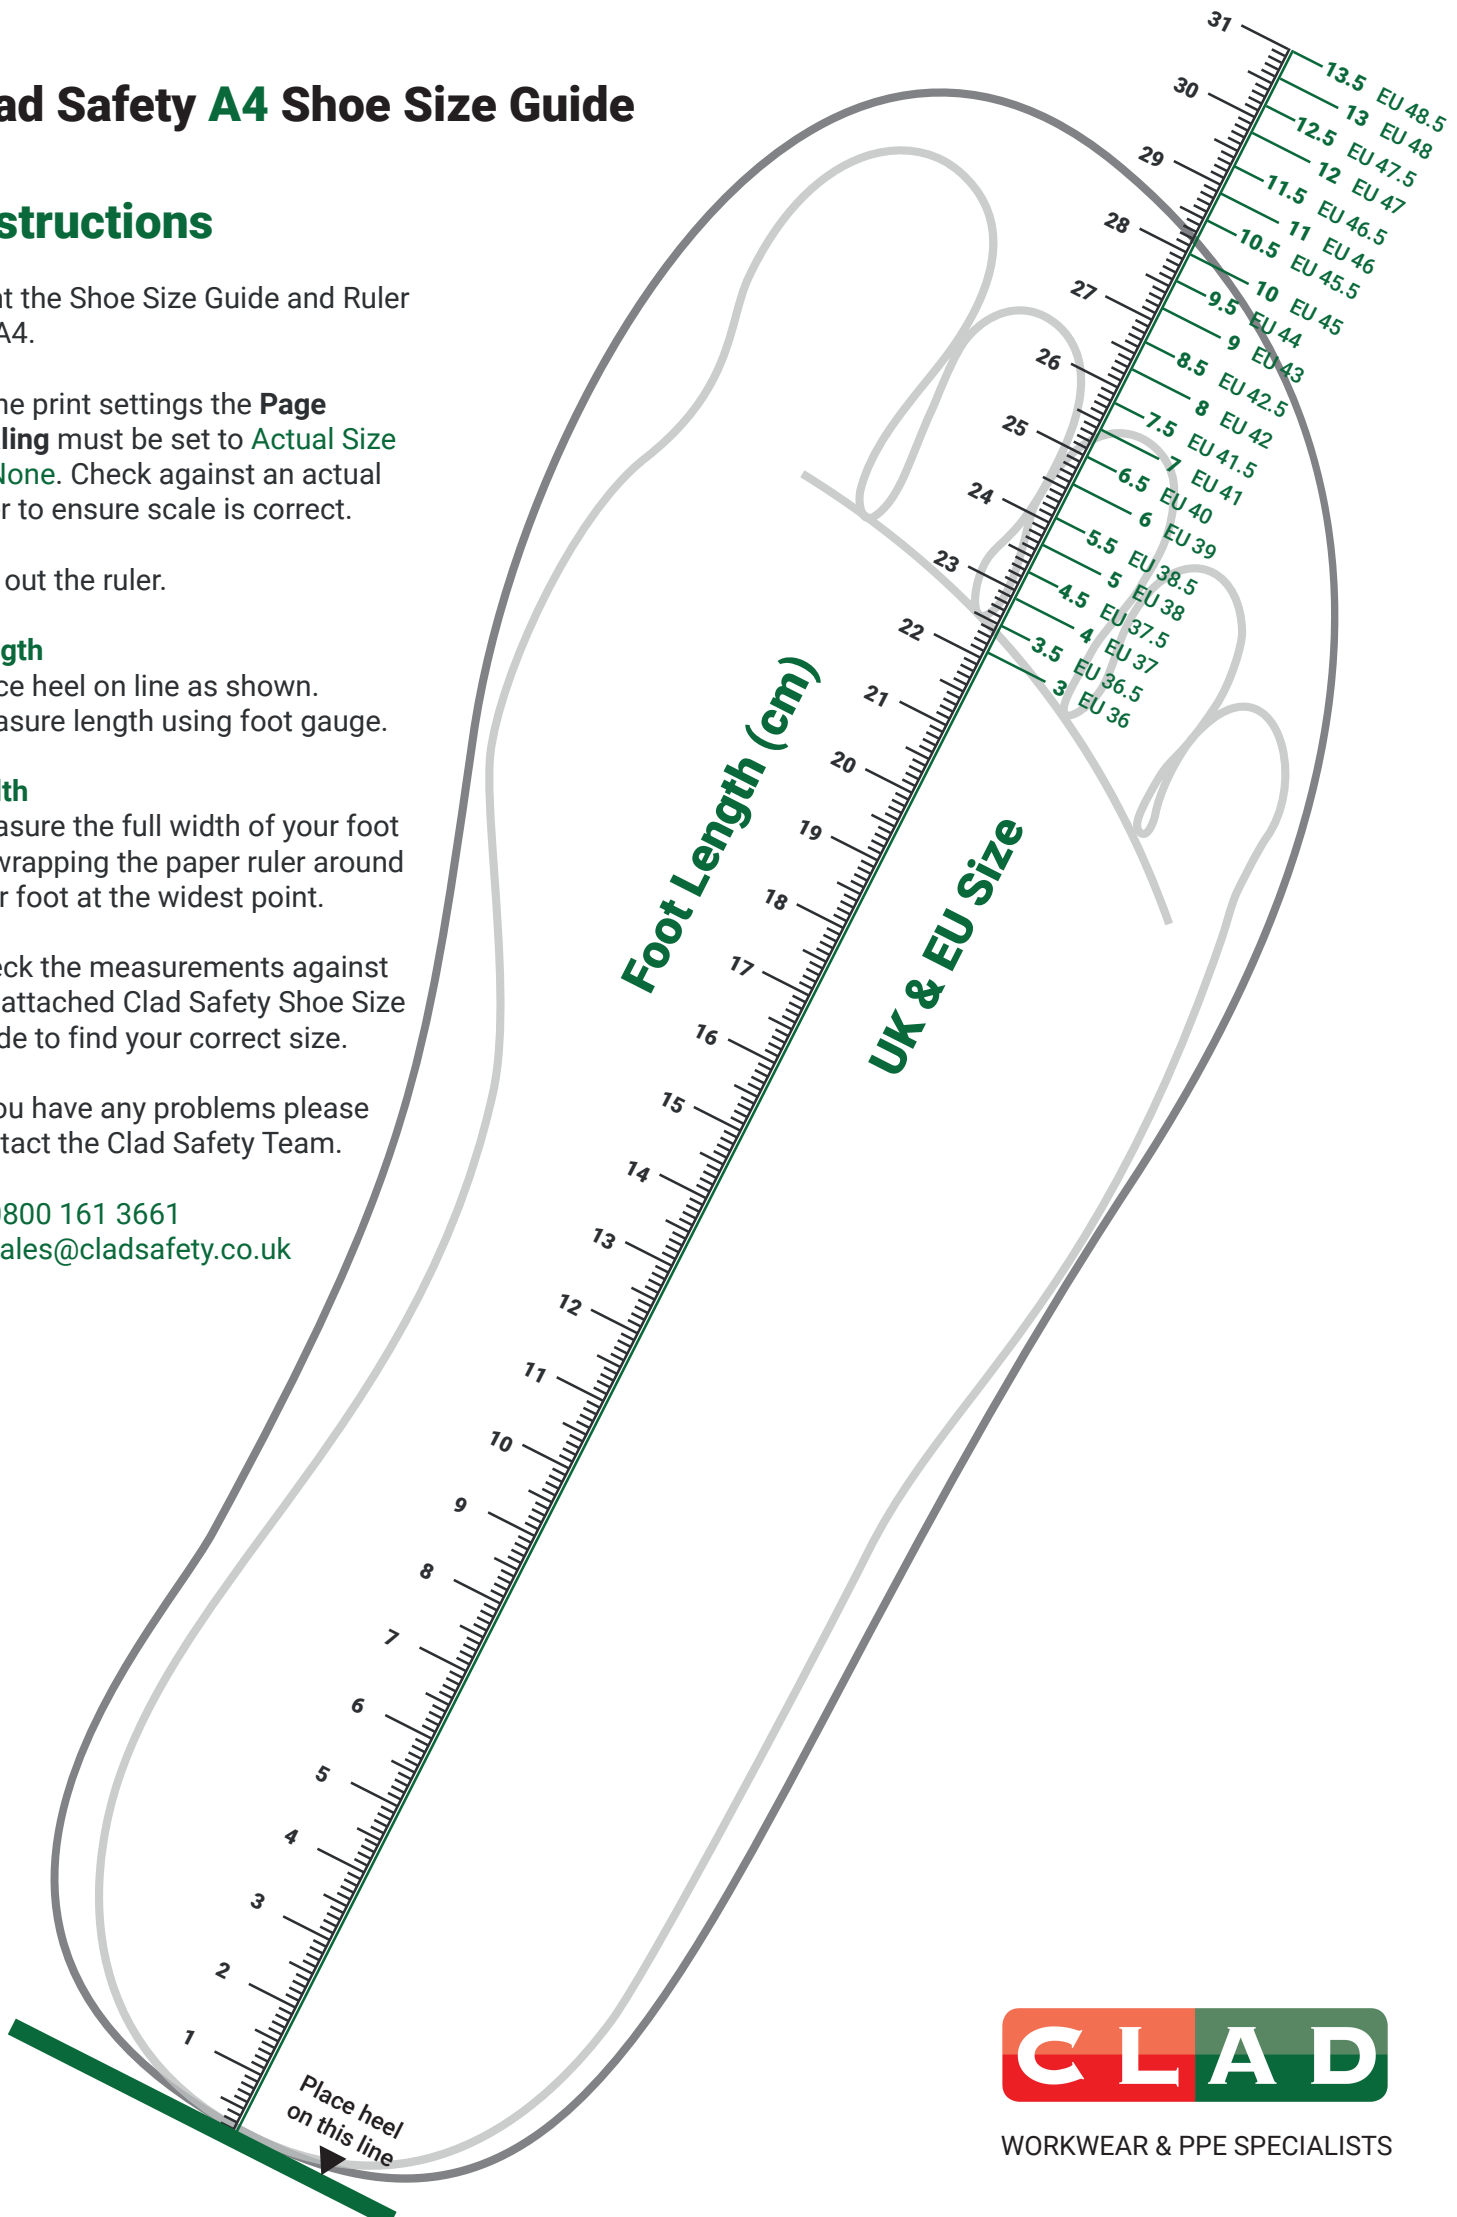

Measure the full width of your foot by wrapping the paper ruler around your foot at the widest point.

Check the measurements against the attached Clad Safety Shoe Size Guide to find your correct size.

If you have any problems please contact the Clad Safety Team.

Haven't got a ruler?

Before cutting out the paper ruler, place a credit card on top of the image below. Make sure it fits exactly within the outline to ensure the ruler has been printed to scale.
